Profile Summary

Motivated Front-End Developer with one year of experience specializing in crafting visually appealing and responsive web applications. Proficient in HTML, CSS, and JavaScript, with hands-on experience in frameworks like React.js and Bootstrap. Collaborative team player, adept at communicating technical concepts effectively and contributing to project success. Eager to leverage skills and passion for front-end development to drive innovation and deliver exceptional user experiences.

Professional Experience

➤ Front-End Developer

Arctictern Solutions Private Limited, Bengaluru

May 2023 - Present

- Collaborated with cross-functional teams to develop and implement user-friendly web applications using HTML5, CSS3, and JavaScript frameworks such as React.js.
- Translated UI/UX designs into responsive and interactive features, ensuring seamless user experiences across various devices and browsers.
- Implemented efficient code practices and optimized website performance to enhance speed and usability.
- Contributed to the planning and execution of front-end development projects, meeting tight deadlines while maintaining high-quality standards.

Internship Experience

➤ Web Development Intern

Arctictern Solutions Private Limited, Bengaluru

February 2023 - May 2023

- Assisted senior developers in building and maintaining web applications using HTML, CSS, and JavaScript.
- Participated in the design and development of responsive website layouts, adhering to best practices in user interface design.
- Conducted testing and debugging to identify and resolve technical issues, ensuring smooth functionality of web applications.

Academic Details

Master of Science in Applied Solid State Physics

-MS Ramaiah University of Applied Sciences, Bengaluru

- Nov 2020 – June 2022

- CGPA – 7.4/10

Bachelor of Science

- BGS Science Academy, Chikkaballapur

- Aug 2017 – Oct-2020

- CGPA – 7.9/10

Certifications

- Complete web design-HTML, CSS, JAVASCRIPT, JQUERY, VUE JS and GIT - Udemy
- React beginner's bootcamp- Udemy
- Build a connect-4 clone in React + JavaScript- Udemy
- Next JS basics- Udemy

Projects

Annotation Tool Development | Html, CSS, JavaScript, React JS, Tailwind CSS, Bootstrap, Postman

- Played a pivotal role as one of the main developers, contributing extensively to the design and implementation of UI/UX elements as well as the logic and functionalities of the tool.
- Single-handedly designed and implemented the entire user interface and user experience for an annotation tool, ensuring intuitive and visually appealing designs.
- Acted as the second lead for the annotation tool project, providing guidance and support to the team in achieving project goals and milestones.
- Implemented responsive design principles and interactive features to support seamless annotation workflows across desktop and mobile devices.
- Worked closely with the project lead and team members to prioritize tasks, resolve technical challenges, and meet project deadlines.
- Basic knowledge of AWS services, including Amazon S3, used for deploying frontend code. Familiar with uploading, managing, and serving static assets in S3 buckets.

Timesheet App Development | Html, CSS, JavaScript, React JS, Tailwind CSS, Bootstrap, Postman

- Led the development effort as the project lead for a timesheet application, overseeing the entire project lifecycle from conception to deployment.
- Directed a team of developers in the design, implementation, and testing of frontend and backend components, providing guidance on technical decisions and code reviews.
- Designed and implemented robust authentication and authorization mechanisms to ensure data security and compliance with industry regulations and company policies.
- Facilitated regular communication and collaboration within the team, conducting status meetings, resolving conflicts, and ensuring adherence to project milestones and deadlines.

OCR for Mechanical Designs | Html, CSS, JavaScript, React JS, Tailwind CSS

- Contributed significantly in frontend development efforts of the OCR project.
- Led the design of user interface layouts, ensuring intuitive interaction for engineers and designers.
- Collaborated closely with domain experts to understand requirements and enhance OCR accuracy.

Technical Skills

- Programming Languages: JavaScript, HTML, CSS
- Frameworks/Libraries: React.js, Bootstrap, Tailwind CSS
- Version Control: Git, GitHub
- Design Tools: Canva, Figma, Adobe XD
- Database: SQL (Oracle)

Soft Skills

- Communication
- Teamwork
- Problem-Solving
- Time Management
- Adaptability & Leadership
